* * *

Wednesday, Douglas Litchfield gave a valentine party to ten of his friends. A lovely chicken supper was served.

* * *

The Readers Progress Club met last Wednesday afternoon at the home of Mrs. Anne Turner. Mrs Edna McLeod gave an interesting review of "Paul Robison, Citizen of the World" by Shirley Graham. It was decided to hold their annual party for their husbands next month Special guests included Hazel Meldrum, Mrs. Ron Watson, Mrs. Norma Meldrum assisted as hostess.

* * *

Miss Mary Heninger was honored last week when the staff of the Alberta Government Telephones entertained for her at a calling shower, at the home of her mother Mrs. Mabel Heninger. Many called during the afternoon and Miss Heninger received many lovely gifts for her new home. Out of town guests included Miss Pearl Heninger and Mrs. Margaret Ingraham, Mrs. D.B Fowler of Lethbridge, Mrs. Nadine Price of Picture Butte assisted with the shower

* * *

Saturday night at the home of Mrs. Louis Brandley the 1st ward Gleaners entertained at a lovely supper for two of their members who are leaving Raymond, Miss Marion Allen who is leaving for Great Britain to fill a mission and Mss Ada Bascom who is leaving to make her home in California. Both members received lovely autographed books. The rest of the evening was spent in games.

* * *

Mr. and Mrs. Kenneth Shaw are spending a few days in Calgary.

* * *

Mr. and Mrs. Frank Taylor returned home Tuesday from Utah. They were accompanied by Mrs. Goodrich, mother of Mrs. Taylor who will visit here for some time

* * *

Friend surprised Mrs. Eva Ralph Tuesday evening. After a pleasant social evening a lovely lunch was served and Mrs. Ralph was presented with a lovely birthday gift.

* * *

Mrs. Emma Hunse who has been living in Edmonton has returned to Raymond.

* * *

A farewell service was held Friday evening after the regular service in the First Ward for Miss Merlan Allen, who left Wednesday for Salt Lake City prior to leaving for her mission in Great Britain. Speakers were Mr. and Mrs. H. F. Allen, M. T. King and Miss Merlan. Special musical numbers were rendered by Ira McBride, Roi, Ken, and Deral Stone, and a solo by Albert Clark of Stirling.

* * *

Stewart Card left Friday for Van couver where he will visit for a couple of weeks.

* * *

Mr. and Mrs. Frank Leavitt spent a few days here this week from Taber.

* * *

Mr. and Mrs. Jack Finch are the proud parents of a baby girl born at the local hospital Monday February 10th.

* * *

Mr. and Mrs. Blayne Jones are receiving congratulations on the birth of a baby boy born Tuesday February 11, at the local hospital.

* * *

Mrs. Elmer Murphy of Cardston is visiting her mother Mrs. Kate Burrows.

NATIONAL APPEAL

OF THE ST. JOHN AMBULANCE APPEAL IS UNDERWAY

Good progress reported at Raymond

Under the leadership of the representatives of the various service organizations of the Town, namely Melvin Depew for the Canadian Legion, Wilford VanOrman for the local First Aiders Group, Mark Heninger for the Lions and Neil Peterson for the Rotarians, four teams of canvassers were formed and the actual work of the canvassing was underway under the general direction of the Campaign Chairman, John Landysheff.

A splendid, sympathetic response of the Raymond people to the St. John appeal for donations has been reported by the captains of the canvassing teams. True to their tradition the town folks give generously at this time in support and continuation of the invaluable services of the order of St. John in teaching and practising both First Aid and Home Nursing.

Incidentally, announcement is hereby made that under the auspices of the St. John Association, a public class in First Aid to the Injured is being organized at Raymond now. The first organizational meeting will be held in the Town Hall at 7:00 p.m. on Thursday, February 20th.

All parties interested to enroll are cordially invited to attend the meeting. Any preliminary information concerning the course may be obtained by contacting John Landysheff, First Aid Instructor or Boy Scout Leaders of the first troup Wilford VanOrman and Roy Woolley

SUGAR MAKERS BALL

Over six hundred employees of Canadian Sugar Factories here in Raymond attended the annual Sugar Makers Ball held in the Opera House Thursday, February 6th. This is an annual affair celebrating the completion of the Factory campaign.

Kay Redd acted as Master of Ceremonies for the evening and after a delicious lunch a program was enjoyed.

Taking part on the program were Albert Clark and Darwin Oler of Stirling, Joe Strong, Ardidge Hill and Marilyn Taylor.

The balance of the evening was spent in dancing to the music of the Royal Canadians.

TEMPLE WEDDING

SCHUMERS HENINGER

On Wednesday February 12 at the Alberta Temple, Mary, second daughter of Mr. and Mrs. Wilford A. Heninger was united in marriage to Louis Schumers, only son of Mrs. John Housley all of Raymond. President E.J. Wood officiated.

Following the ceremony, a reception was held at the home of the bride's parents in Raymond.

The bride was lovely in a floor length gown of nylon satin and net. Her finger tip veil was caught in a heart shaped halo, while her bouquet was of red and white carnations.

Mrs. Nadine Price, matron of honor, wore a gown of pink sheer and carried a bouquet of yellow daffodils. Darwin Price of Picture Butte supported the groom.

Receiving the guests were the mothers of the bride and groom. Mrs. Heninger chose a gown of aqua blue crepe and wore a corsage of pink carnations while Mrs. Housley wore black with corsage of pink carnations.

The brides table was covered with a lovely cloth of linen and lace and was centered with a beautifully decorated three tiered wedding cake, flanked by crystal candle sticks and pink and white tapers. A lovely bouquet of yellow daffodils and tulips made a pleasing background.

The house was decorated with daffodils and carnations. Miss Colleen Housely was in charge of the guest book.

A dainty buffet luncheon was served to over a hundred guests.

The bride chose as her going away costume, a suit of brown gabardine with matching accessories, and a top coat of aqua blue wool trimmed with brown.

The young couple are spending their honeymoon in Great Falls and on returning will reside at Welling.

Out of town guests included Dr. and Mrs. Maurice Heninger, Dr. and Mrs. D. Fowler, Mr. and Mrs. Bud Sanford, Mr. and Mrs Hugh Crawford, Mr and Mrs. Bob Koyle, Miss Betty Housley, Mr. and Mrs. J. D. Crabb, Mrs. Ernest Housley all of Lethbridge; and Mr. and Mrs. Floyd Wilde, Mr. and Mrs. Leonard Mehew, and girls of Welling.

Pioneer of Raymond Laid Away

Death came quietly Friday, February 7th, to a man prominently associated with the development of Raymond and southern Alberta when Oscar Raymond Knight passed away at the home of his sister-in law at Magrath, Miss Pearl Heninger. He was seventy five years of age and for the last three years following a stroke had been in poor health.

Paying tribute to this highly esteemed man over six hundred people gathered at the Stake House on Monday to pay last respects to the man for whom Raymond was named

Services were under the direction of Bishop L.L. Palmer of the Raymond Second Ward. The rostrum and beautiful bronz casket were banked high with lovely floral tributes and a full choir rendered the hymns "O My Father" and "We Lay Thee Softly Down". A male quartet sang "Home On The Range" with James Harker taking the solo, and a baritone solo 'Going Home" was rendered by Joseph McLean.

Speakers were Elder James H. Walker and Elder Melvin T. King.

Mr. Walker, who had been closely associated with Ray Knight for 34 years paid glowing tribute to the life of the deceased and said he had found him to be a man of fine habits, honest and clean living and with the true pioneer spirit. He spoke of the developments Mr. Knight had sponsored, his willingness to seek improvements and his many reservoirs for the conservation of water.

Mr. King spoke of his love for good horses and cattle and of his undieing faith in God, and said his contribution to this country and this community would live long as a monument to one of its greatest citizens.

Interement was in the family plot in Raymond with Elder Heber F. Allen dedicating the grave site.

Honorary pallbearers were C. R. Wing, James Meeks, L. D. King, Jack Mehew, Will Lamb, Ted Davis, W H. McIntyre, Ralph Thrall, Czar Fairbanks, Ralph Depew, H. M. Wilbeck and Andy Lund.

Active pallbearers were R. W Kinsey, Reg Cooper, Andy Noel Ruben Snow, Owen King, and Wm Fairbanks; all old employees of Ray Knight. Christensen Brothers were in charge of funeral arrangements.

He is survived by his wife and the following children, Ray in Nevada, Miss Uarda in Hurricane Utah, and Kenneth of Raymond by the first marriage, and Wayne of Los Angles Jesse of New York, Charlotte, a correspondent with the occupation forces in Tokoyo Japan, and Mrs. Mary Thompson of Washington. A brother, Will, resides at Provo Utah and a sister Jennie Mangum also at Provo.

* * *

Oscar Raymond Knight was born in Payson Utah, April 8th, 1872, where he attended school and ecquired his skill and love of farming and ranching on his father's ranch.

He married Isabelle Smith, June 4, 1891, who passed away after they had moved to Canada.

He moved to Albetra in 1900 where he built a fine home and acquired a large ranch in the Raymond district, taking the lead in pioneering southern Alberta.

His second marriage was to Charlotte Maude Heninger, member of a pioneer family of Magrath.

Ray Knight held many trophies as a rodeo performer and was known in western Canada as the "Father of the Stampede". He went to New York one year as a judge at the Madison Square Garden Rodeo.

Ray Knight owned and leased large tracts of land in southern Alberta and ranged cattle, sheep and horses in the ridge country south of Raymond. He operated the Kirkaldy Ranch in this district, perhaps the best known of his holdings. He was well known throughout western Canada and the United States for his dealings as a rancher and cattleman He will live long in the memery of the community in which he took a leading part in building it up.

* * *

A TRIBUTE TO
RAYMOND KNIGHT
by Bernard Anderson (Grade 5)

He rode upon a saddle,
With stirrups at his feet.
He roped the calves and cattle
On that great big hunk of meat.
He cared not for a penny
But made a profit great.
He built a sugar factory
But always held an open gate.
He came in 1901
And cared not for a fight.
I think you've guessed it now,
The old timer Raymond Knight.

LABOUR UNION ELECT OFFICERS

On February 7th, the annual meeting of the Raymoud Sugar Factory Employees Federal Union No. 118 was held.

The main purpose of the meetung was the election of officers in which a lively and enthusiastic group took part, electing W.S. VanOrman again as President for his fourth year. He has filled his position well and by his favorable vote will be in the drivers seat at least another year.

Other members given responsibilities were Fred Gardiner as 1st Vice President, Cecil Finch as 2nd Vice President with C. R. Bennett, Fininicial secretary, C. A. Layne, Recording secretary, the latter three being re-elected.

The Grievance committee will include Roy A. Wooley, and C .R. Bennett as new members along with J.M. Holland and Albert Hague who have been serving in the past year.

For the Labor-Management committee Albert Hague and Fred Gardiner were elected. Bert Still and June Anderson will assist our past members Percy Poulson and Allan James on the Good and Welfare Committee.

To keep apace with the times Albert Hague and C.R. Bennett will be new members along with Wes. McMullin and Joe Thmpson as delegates to the Lethbridge Trades and Labor Council meetings.

During the course of the meeting

(continued on inside page)

STIRLING

NEWS NOTES

By Mrs. Lief Erickson

Mr. and Mrs. Wm Mertz are receiving congratulations on the birth of a baby boy. Mrs. Mertz is a patient in St. Michaels hospital.

* * *

* * *

Mrs. Clinton Hardy returned to her home on Saturday from Syracuse Utah, where she was called to attend the funeral of her mother

* * *

Glen Nelson of Pincher Creek is visiting friends and relatives here.

* * *

Mrs. Albert Clark is visiting with friends at Hartell, Alberta, this week

* * *

On Wednesday evening the Special Interest group of the M.I.A. sponsored a very successful old time party The following extemporaneous program was given Reading, Mrs Earl Nelson; Hobo Tap Dance number by Darwin Oler; vocal solo, Albert Clark; an accordian solo, Ellen Neison and a reading by Margaret Zaugg. An old time lunch followed with chicken noodles, dried corn, and custard pie. Kerosene lamps were used for lighting the luncheon table. After lunch pioneer dances were enjoyed until midnight.

* * *

A number of friends met on Thursday evening at the home of Mrs. Thelma Jacobs for a social hour. A lovely lunch was served by the hostess and a pleasantevening was spent.

* * *

Those attending the Stevenson-Redd wedding in Raymond Saturday night were Mr and Mrs. Albert Brandley, Mr. and Mrs. Joe Proctor, Mr. and Mrs. Wilford Brandley and Mr and Mrs Earl Nelson.

* * *

Mr. and Mrs. Willis Fawns have returned to their home from Picture Butte where Willis has been employed during the sugar campaign. They will leave again on Wednesday hy ear for a visit in Utah and probably Calfornia. Mrs. Fawns parents Mr. and Mrs. Burnham of Cardston will accompany them.

* * *

Mr. and Mrs Lloyd Oler and family of Picture Butte were Sunday guests at the home of Mr. and Mrs. Bob Oler

* * *

The annual rate payers meeting was held in the school house Monday evening. William Hogensen was returned to the Village Council for another term.

* * *

Mrs. Wilford Brandley left on Thursday for Montreal where she will visit with her daughter and son-in-law Mr and Mrs. Walt Pitcher.

Mrs. Norma Christensen and Mrs. Dorcen Peterson were joint hostesses at a lovely birthday party at the Peterson home on Friday afternoon, honoring Mrs. Earl Peterson. A pleasant afternoon was spent visiting. A delicious lunch was served after which Mrs. Nelson was presented with a numher of attractive gifts from her friends.

* * *

Mr. and Mrs. Darwin Oler entertained a number of friends on Sunday evening. A delicious lunch was served by the hostess and a pleasant social hour was spent.

* * *

On Saturday evening at the Community hall a bridal shower was held, complimentary to Mrs. Tod Hiabeck, nee Blanch Ostlund. The hall and luncheon tables were attractively decorated with hearts, cupids, lacy valentines and red and white streamers. A short, but entertaining program was conducted by Mrs. Elodia Christensen after which a tasty lunch was served. The honored guest was then presented with numerous gifts an elaborately decorated valentine box for which she very graciously thanked her assembled friends. Mr. and Mrs. Hiabeck will reside in Lethbridge. Several out of town guests attended the paty.

* * *

Last Friday night, local Basketball fans witnessed a thrilling battle between the local A team and the Cardston hi Cougars. Play was fast and fairly even throughout but toward the end of the game too much whistle tooting rather spoiled things Three of the local regulars were fouled off the floor in the last quarter, which found Cardston in the lead at 37-36. Failure to capitalize on a fair percentage of foul shots in the last half lost the game for the locals.

In the girls game the local team won over the Cardston girls by a score of 17-12. This game was also very even, there were flashes of some nice work hy players on both teams. The Stirling girls are improving in their recent games.

New Dayton

NEWS NOTES

Marilyn Christensen

Friends will he glad to hear that Mrs. Rex Cahoon has returned from the Holy Cross Hospital in Calgary after a recent operation. Mrs. Cahoon is reported as doing well.

* * *

Miss Marilyn Christensen has returned from the St Michaels hospital after a recent illness. She will return to school shortly.

* * *

Mr. L. B Duncan has returned home after a recent illness in the Galt Hospital, Lethbridge.

* * *

Mr. Clifford Christensen spent the week end at his home here. Clifford is a student at the Stirling High School.

Welling

NEWS NOTES

by Mrs. E. K. Bullock

Mr. George Bullock has gone to Spokane to visit his sister Mrs. Gerald Gray and family. He took with him his sister Mrs. Morel Elder and husband from Coaldale. They will meet Mrs. Bullock there who has been visiting her daughter Mrs. Allen Ackroyd in California

* * *

Mrs. Nephi Taylor is now out of the hospital but will be in a cast for some time. Kenneth Taylor is home also but walking on crutches. We are pleased also to report that Thaine Smith is also out of the hospital.

Your correspondent spent a few day in Raymond taking care of her son Glen's children while Mrs. Bullock visited in Calgary.

The Welling Ward annual supper was held Wednesday February 12. An unusually large crowd was present and a bounteous chicken supper was served on beautifully decorated tables. Decorations were by Mrs. Alvin Bullock and Mrs. Vaughn Taylor and the supper was in charge of the unday School. Mrs. Voyd royd planned the varied and interesting program. Toasts were given during the supper first to the King then the oldest woman, the oldest man, to eating, to drinking, the supper committee and t the newest members of the Ward. The remainder of the evening was spent in dancing to music furnished by Tom Allen and Emma Dahl.

Louis Schumers of Welling and Miss Mary Heninger of Raymond were married on Wednesday. They will make their home in Welling on the groom's farm. We offer the best wishes to the happy couple.

We have enjoyed the chinook winds blowing our way the past few days, although we could easily dispense with the mud.

Election Results

Renan Pack and Harry Fairbanks were returned to the Council of the Town of Raymond by the voters last Monday with 143 and 133 votes respectively. Four other candidates Shirley King, J.E. Harker Ted Wagstaffe and Archie Terry also ran for the positions.

Three candidates ran for the vacancies on the School Board with high votes of 237 and 219 going to S. J. Weaver and T. W Meldrum respectively. Ira McBride was the other candidate in the contest

The number of votes cast was small, there being only about 325 voters at the Polls.

CLASSES DOMESTIC WORK AS SKILLED

VANCOUVER. — No longer can women who visit homes to assist in daily work be regarded as unskilled labor, is the belief of Eleanor S. Morley, supervisor of the women's division of the National Employment Service.

"These people must be classed as household workers," she said. "They are as highly skilled."

The stigma attached to household workers was one reason there was such a shortage of them, she said. Before the war they received as little as five dollars monthly with room and board. Now they are getting 50 cents an hour and more.

"Would-be-employers must learn to accept their household help on the same basis as their business employees," she said. "We have a substantial waiting list of employers, but unless conditions change, the help situation this summer will be in even shorter supply than now."

AVOIDING COLDS

Here's the way National Health authorities suggest one may avoid respiratory infections—most common during cold weather: eat regularly, having well-balanced meals; sleep in well-ventilated rooms, clean out impurities of the air-passages by deep breathing, and stay away from obvious cases of sore throat and head colds.

CHICAGO YOUTH GETS NEW FACE

GRAND RAPIDS, Mich.—David Ruge, 16-year-old Chicago boy who admitted attempting to extort money to finance a facial operation to eliminate "ape-like" features, was released from a hospital here, his doctor expressing complete satisfaction with the surgery.

The operation was performed Jan. 15 by Dr. Ferris Smith, internationally known plastic surgeon.

David left Grand Rapids in company with relatives, Dr. Smith said.

David has seen his face in the mirror every day since the operation during changes of dressings, Dr. Smith explained, and has frequently expressed "delight" over the results.

He added that the structure of bones and muscles originally had given the boy "a perpetual scowl of a particularly ferocious nature."

FERTILIZER CONSUMPTION

Fertilizer consumption in the United States in 1946 was more than double that used in any prewar year, according to an article in the American Fertilizer Magazine. It is estimated that fertilizer used in the U.S. during 1946 amounts to 200 pounds for every man, woman and child in the country. This compares to an estimated Canadian fertilized consumption equal to approximately 100 pounds per capita, reports C-I-L Agricultural News.

To Feel Right — Eat Right!

GOVERNOR BACKS MILITANT MOOSE

WASHINGTON.—Governor Ernest Gruening of Alaska came forth as a defender of Alaska's militant moose even if they do:

Attack trains.

Cause derailments.

Lope along ahead of the engines and make a farce of railroad schedules.

Gruening rejected a request by Col. John P. Johnson, manager of the Alaska Railroad, that moose who make pests of themselves be reduced to mooseburgers.

"The delay is not sufficiently serious to warrant killing these noble animals whose presence on the railroad, while an occasional handicap to speedy transportation, is more than a compensating feature as an attraction to tourists in the summer time," Gruening said in a reproving telegram.

Johnson, obviously not at all delighted by antics of the wayward beasts, complained that on Jan. 10 alone they caused 14 schedule delays and one derailment.

The Kiwi is the emblem bird of New Zealand.

Man Who Refused To Lower Union Jack Is Honored

OTTAWA.—The man who refused to lower the Union Jack at Singapore has been awarded the Order of the British Empire, Defence Headquarters announced.

He is Lt.-Col. Arthur Robert Stewart of Vancouver, commander of the first party to reach Singapore in September, 1945. In its prosaic official language of understatement, the citation said this:

"He was most forceful in his dealing with the Japanese, and secured immediately the main vital needs of prisoners of war and internees. He refused to lower it (the Union Jack) despite very strong representations by the Japanese High Command.

"Innumerable expressions of gratitude have been received from prisoners and internees themselves for Lt.-Col. Stewart's work."

Col. Stewart was credited with doing "invaluable work" in looking after the interests of prisoners-of-war interned by the Japanese. He was in complete control of the city from Sept. 1 to Sept. 5, when British sea forces landed.

Born in China and a police officer in Vancouver before the war, he enlisted as a private with the Irish Fusiliers in 1942. Promoted to regimental sergeant-major, he was commissioned while overseas and later was attached to the British Army for special work in Southeast Asia. Lt.-Col. Stewart was discharged from the Army last August.

ANTLER-SHEDDING TIME

Our zoologists tell us that moose and deer shed their antlers during a period extending from December to March, the older animals losing them first. Surprisingly few antlers are found lying about the woods since rodents such as squirrels, mice and porcupines gnaw away at them. Antler is one of the hardest types of bone, too.

New York City has 619 miles of subways, of which 313 miles are actually underground.

The average size for east coast salmon is 10 to 15 pounds. 2711

JUST TOO WIDE

MADISON, Wis.—State Senator Clifford W. Krueger has more trouble than anybody.

The 425-pound legislator couldn't fit into a regular chair in the Senate Chamber, so the state Junior Chamber of Commerce arranged for an oversized model.

It came, but Krueger can't use it. The 31½ foot width is too wide to permit it to fit between the chairs of seatmates.

FOOD COMBINATIONS

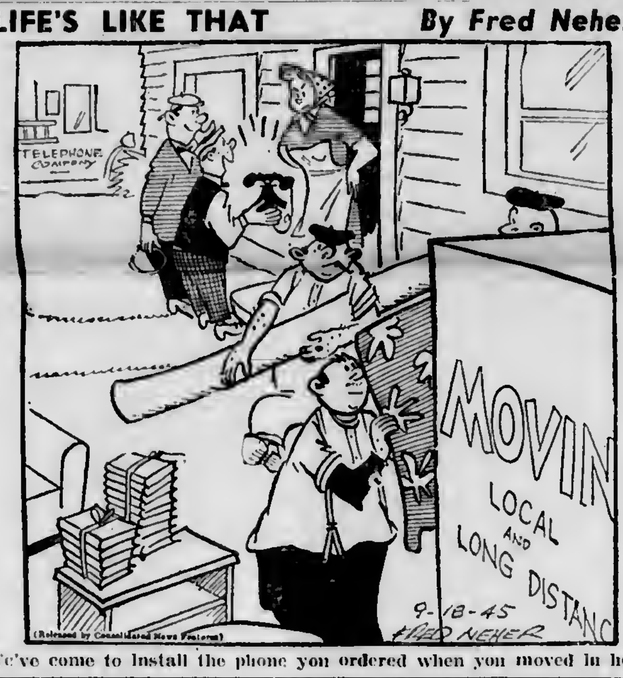

Pointing out that not even milk is a perfect, self-sufficient food, nutritionists urge inclusion of all the nutritional factors in diet, by combining such edibles as milk, fruit, vegetables, cereals, bread, meat or fish, so that a meal will provide all the essentials to maintenance of health.

ALBERTA ANCHOVIES?

Farm women are being urged by the Alberta Government Travel Bureau to concoct a dish which will be distinctively Albertan and which will send tourists who visit this province back o their home towns raving about the good food they got while on holidays in this fair province.

'Boston has its baked beans, Mexico its chil con carneand even Winnipeg has Winnipeg goldeyes so we here in Alberta where world-champion food products ar produced, should have a dish for which we can become as famous internationally," said Dan. E.C. Campbell, director of the Travel Bureau.

"Tourists like our beef steaks and I cant think of a better meat dish o give them, but they can get good steaks in other places so we want ours to be much better than others and served wih a distinctive sauce or cooked in some special way which will make it famous for deliciousness all over the world,'" Mr. Campbell added.

Conditions of the contest and entry blanks for it may be obtained from the local Treasury Branch or by writing direct to the Alberta Government Travel Bureau Legislative Building Edmonton.

An Agency For Peace

THE PHRASE "ONE WORLD" has been used in many connections in recent years and it has become very familiar to us all. It has now been taken up by the United Nations Educational, Scientific, and Cultural Organization which has summarized its objective as "to make the peoples of the world live and think in terms of one world." It is possible that this organization, in which forty-four countries are represented, may have a far-reaching effect on the future outlook of many thousands of people, for it plans to work through departments of education, teachers, and adult education leaders to promote international understanding and stamp out narrow nationalism.

* * * * *

To Break Down Many Barriers

The organization, known more briefly as U.N.E.S.C.O., hopes to develop a world-wide program in fundamental education and to fight illiteracy. It also plans to study the possibilities of establishing an international radio network and of breaking down barriers in other fields associated with the exchange of information and ideas. Mr. Herman Voaden, one of the Canadian representatives to the recent meeting of U.N.E.S.C.O., pointed out in an interview at the conclusion of the gathering, that it must be remembered that the organization does not wish to interfere with the art or culture of any country, but only to teach "the age-old theme of tolerance, understanding and friendship."

* * * * *

A Hopeful Sign For The Future

Prime Minister Attlee once said that "war is made in the minds of men." Few people need to be reminded of the powerful part played by distorted ideas in the building up of the Nazi regime in Germany. It is now a hopeful sign for the future peace of the world that the importance of education in breaking down prejudice and misunderstanding has been recognized, and that practical steps are being taken to use it as a means of preventing future wars. One very commendable and practical undertaking of the organization is the plan to launch a campaign to raise $100,000,000 to rebuild schools and provide educational equipment in the war-devastated countries. It is probable that immediate results of the plans made at the recent meeting held by U.N.E.S.C.O. will be felt here and in other lands, and it is to be hoped that its undertakings will meet with the interest and support which they deserve.

PREDICTS CAR OUTPUT TO INCREASE

TORONTO.—Prospective buyers of new cars are going to get a 50 per cent. better break in 1947 than they received in strike-torn 1946, according to W. A. Wecker, president of General Motors of Canada Ltd., who predicted that the Canadian auto industry would produce between 150,000 and 170,000 cars and trucks this year. Last year production totalled 105,000 units.

Mr. Wecker spoke at the annual dinner held by his company for the press at the Royal York Hotel. The program was presided over by E. J. Umphrey, director of sales for GM.

"My own prediction is about 160,000 cars and trucks, which will relieve the pressure to some degree," the president said. "It will mean that the public won't have to wait so long to get their orders filled."

Mr. Wecker stressed that these production figures were conditional on there being no major work stoppages. He believed that by mid-summer of this year, the supply picture would be much improved. In normal times if there is less than three days supply of any parts on hand, the plant is considered to be out of them, Mr. Wecker said. Today, the factory is running on an hour-to-hour basis on the 8,000 individual items that go into manufacture of cars and trucks. The company had sent its own trucks into the United States to speed up delivery of critical parts.

"We are desperately doing everything possible to fill our production gaps," Mr. Wecker told his audience. He pointed out that though 1946 was a disappointing year in many respects, because of strikes and numerous shortages, more cars were turned out in that year than in the last prewar year of 1939.

"After the first quarter of 1947, it is not too much to expect a gradual rise in production volume," the president said.

FUNNY and OTHERWISE

It was the young usher's first big wedding and he had to evict an old lady from the reserved seats. Nervously he tapped her on the shoulder and then said with a rush: "Mardon me, Padam. You're occupewing the wrong pie. May I sew you to another sheet?"

* * * *

Juggins: "How do you get on with the boss, oh! man?"
Juggins: "He's about the meanest man I know."
Joggins: "How's that?"
Jugghs: "He's had the legs sawn off the wheelbarrow so that I can't sit down and rest."

* * * *

The banker's daughter threw her arms around the neck of the bridegroom-to-be.

"Oh, dear," she exclaimed, "dad's going to give us a cheque for a present!"

"Excellent!" exclaimed the happy young man. "Then we'll have the wedding at noon instead of 2 o'clock."

"Why, dear?"

"The banks close at 3!"

* * * *

The train was a cross-country affair that stopped at all stations and frequently several times in between. Toward the end of a very long journey the conductor came around.

"Look here, sir," he said to one of the passengers as he examined his tickets, "that boy is too big to travel half-fare."

"Is he really?" replied the passenger quietly. "Well, he was small enough when we started."

* * * *

Bill was busy at his desk when a friend creaked in:

Friend (groaning)—I don't know what to do with this rheumatic pain.

Bill (politely)—I didn't know you suffered from rheumatism.

Friend (glowing)—What else can you do with it?

* * * *

A professor of physiology was describing the organs of sense, etc., and finally asked for a summary of his lecture. The star of the class arose and said:

"Well, Prof., as I see it, I see with my eye organ, I hear with my ear organ, I smell with my nose organ, I eat with my mouth organ, and I feel with my hand organ."

* * * *

"I can't sleep," wailed a voice in his ear, as the doctor got out of bed to answer the telephone at three in the morning.

"Hold the wire," said the doctor crustily, "and I'll sing you a lullaby."

Palm oil is used in the production of steel plates. 2711

Soviet Weathermen Coming To Canada To Exchange Data

TORONTO.—Dr. C. G. Rossby, professor of meteorology at the University of Chicago, told the Royal Canadian Institute here that Russia is sending a group of experts to Canada and the United States to confer with meteorologists of the two countries, while a group from the U.S. is going to Russia.

He said that as far as meteorology was concerned, Russia co-operated "cordially and completely" in the exchange of weather information.

Canada has six weather stations in 500,000 square miles and should have 15 more, he said. Despite "certain districts of Russia" the fact remained that Russia sends more weather information to Canada than the Dominion's weathermen send to Russia.

Since weather recognizes no borders, Dr. Rossby said he hopes that some day there will be a world weather organization, financed internationally.

Meteorologists throughout the world, regardless of politics and policies, are on a "first name" basis and are interested only in meteorology, he added.

HONEST ANYWAY

—Whenever we read about some man saying, in answer to a reporter's question, that he attributes his success to his wife, we think of the refreshing answer once made by a man who had the courage not to be modest: "To what do I attribute my success? Why, to my ability, of course!"

POULTRY PURCHASE

OTTAWA.—The British ministry of food has agreed to purchase up to 10,000,000 pounds of dressed Canadian poultry before March 31 and the special products board has increased its buying price to one-half cent under the wholesale ceiling, the agriculture department announced recently.

To Feel Right — Eat Right!

PREDICTS SUCCESS IN CANCER RESEARCH

NEW YORK. — The problem of cancer will be whipped within five years, Elmer Bobst said in accepting the chairmanship of the American Cancer Society's drive to raise $12,000,000 for a concentrated attack on the disease.

Bobst is not a medical man, but he is a recognized authority on cancer. He said he based his opinion that cancer would be solved in five years on the knowledge he had gained in his years in the pharmaceutical business.

Bobst also disclosed that the society already has made research grants, totalling about $3,500,000, to 101 universities and medical schools, and that eventually every phase of cancer would come under the program.

At least 1,000 topflight scientists are now working in the research laboratories and more will join the battle as the accelerated program moves forward, he said.

"I believe that within five years we will know all about cancer, he said.

Bobst indicated that numerous new leads and discoveries had been made in the research laboratories and that some of these might be made public soon.

Confusion Exists In Cleveland's Chinatown

CLEVELAND. — Confusion, not Confucius, has been reigning in Chinatown here. This city's Chinese population couldn't agree on when to celebrate Chinese New Year.

Some figured it would fall in late February. One man held out for Jan. 22, and the rest have been giving their absences a work-out trying to decide for themselves.

The dispute is because an airmail shipment of Chinese calendars was overdue.

According to the Chinese calendar, 1946 ended Dec. 31, which is Dec. 2 by the Gregorian calendar.

"Chinese Decembers have only 30 days," said Wing Chin, a Chinatown resident. "Some years have 13 months. Some have 12 months. I think New Year's is the 28th or 29th of February. Maybe by then I'll have it figured out."

But that's just Wing's opinion. His neighbor, Ed. Dea, believes every third Chinese year has 13 months. "No extra month," he said. No wonder they're confused.

And why so much fuss over Chinese New Year's? William Young explained: "It is important because everybody's birthday in China falls on New Year's day. Chinese babies are one year old when they're born. Then they become two years old on the first New Year's, even if they were born a few minutes before the old year goes out. Also, debts are paid on New Year's.

"Next February has almost 60 days," Young added darkly. "Makes figuring very hard."

Howard Chin, of the Hip Sing Lee Tong, pointed to his newly-arrived Chinese calendar, and said, "New Year's comes January 22; also says good day for planting rice crops."

New Zealand's first railway was opened in 1863.

Healthy Attractive

There is nothing so destructive to beauty and attractiveness as chronic fatigue.

Here's the New Fast Rising Royal way to give your family all the delicious, full-flavored bread they love so well—and not wear yourself to a frazzle doing it!

New Fast Rising Royal's speedy action lets you do all your baking in a few hours during the day. Eliminates old-time "overnight" baking bother and risk.

New Fast Rising Royal stays full-strength on your pantry shelf for weeks—ready to save time . . . save you. Get New Royal Fast Rising Dry Yeast at your grocer's.

His Excellency, Field Marshall, the Rt. Hon. Viscount Alexander of Tunis, governor general of Canada, is seen in the robes of the order of St. John of Jerusalem, of which he is Grand Prior in Canada. His Excellency is patron of the Dominion wide campaign which begins February 2 and ends February 22, for $1,000,000 to further St. John Ambulance work throughout Canada.

Lethbridge Herald Engraving

Above is a map with the shaded and black areas showing the land holdings of the Hutterites in southern Alberta which totals over 200,000 acres. The Hutterites started immigrations to Canada in 1899 and the last immigration was as late as the year 1934. A committee is meeting this week in Lethbridge to hear briefs from the Hutterites and from the Veterans who are opposing the desire of the Colonies to expand and buy more land. The Land Sales Prohibition Act expires May 1st, 1947 and Veterans and sympathetic organizations in southern Alberta are attempting and making recomendations to the Government to have the Act extended at least another ten years.

CAMPUS CAPERS

by MISAE HIRONAKA

Visual education! (sigh) those words held the promise of school without drudgery. Only fond youthful dreams as any brain (i.e. student) can tell you. Oh but they were lovely, all we did was sit and watch the lessons flit past on the screen, and Hs appeared as Social Studies and math marks on VE (victory over exams) day in August. But what a let 'down, we still study long and hard to get the work. The projector is used a great deal however and in spite of the difficulty in getting films (since we dont have a library of our own) it illustrates salt mining, symphony orchestras etc etc very well. On second thought who wants to get the work so easily? Anything worth getting is worth working for. The $74 question is ($10 bonus with the right answer) is it worth it

But school is like a different place at noon. The 'its over my head" look disappears from the faces of our contemporaries and they're really out to win. Why the change? The come-back of ping pong to the little red school house. For many moons, (at leat one) it has rivalled basketball as favorite game on the campus and we hope to see a tournament around the corner.

Basktball? Far from forgotten. Why only Friday the girls team defeated Magrath 29-21. The quintette is getting better and better and they're out to get the championship this year and believe me they have the ability to do it and the support of the whole school

The Zeniths won the last game with the Comets, but if our calculations are correct its the last game they will win. For more details read Sport Spot.

Right now the heavenly smell of fried onions and burnt muffins is issuing from the Home Economics department and mixing with the odors from the laboratory. You can have your soaps with exotic perfumes, they have nothing compared to the R.H.S.

WINTER WHEAT

Winter wheat is a crop which has proven too hazardous for general use in the Prairie Provinces although under some conditions, particularly in Southern Alberta, it is grown satisfactorily. The advantages of winter wheat, where it winters successfully, are that it excels spring wheat in controlling soil drifting and weeds, in getting ahead of late summer drought and early fall frosts, in yielding capacity, and (recently) in price.

Results of Experiments. — Experiments on varieties of winter wheat and methods of growing the crop have been conducted in the Prairie Provinces for the past 25 years. At the University, Saskatoon, years of experimentation showed that winter wheat sown on open, unprotected summerfallow usually winter-killed, but when the crop was protected by snow trapped by trees, hedges, or rows of sunflower stalks, it generally survived.

Areas of Production.—Available reports show that, in 1944-45, winter wheat comprised about 6% of the total wheat acreage of the Cowley, Macleod, Cardston, Lethbridge, Medicine Hat, Manyberries districts of Southern Alberta, and 6.3% of the Beaverlodge, Grande Prairie, Fairview area of the North. In other parts of Alberta the acreage is very small. In Saskatchewan considerable success with winter wheat has been achieved in the Semi-Pastoral area, and in the Meadow Lake district of the North. In Manitoba there has been practically no success with winter wheat growing.

Suggestions. — Three suggestions are offered to those interested in winter wheat. (1) Do not attempt growing winter wheat unless the situation and conditions appear favorable. (2) Sow relatively few acres using recommended varieties and procedure. (3) Report your results, whether a success or failure, to the nearest University or Dominion Experimental Station.

THE MOON RISES

"The line of the horizon was clear and hard against the sky, and in one particular quarted it showed blue against a silvery climbing phosphorescence that grew and grew. At last, over the rim of the waiting earth the moon lifted with slow majesty, till it swung clear of the horizon and rode off free of moorings and once more they began to see the fair meadows wide spread and quiet gardens, and the river itself from bank to bank, all softly disclosed, all washed clean of mystery and terror, all radiant again as by day, but with a difference that was tremendous.

From "The Wind in the Willows" by Kenneth Grahame.

Weed Control With 2,4-D

2,4-D is a hormone-like substance or growth regulator. It is a new chemical weed killer of great promise. During 1945 and 1946, thousands of tests were made of 2,4-D on large numbers of weed and crop plants in the United States and Canada. On the basis of these tests the North Central Weed Control Conference, held recently at Des Moines, Iowa, made certain tentative recommendations in respect to the use of 2,4-D in 1947, a brief summary of some of which is presented here.

Recommendations. 2,4-D is recommended for the following purposes: (1) To control broadleaved weeds in lawns and turfed areas. (2) To eradicate many weeds from roadsides, rights-of-way, ditch banks, fence rows, and other areas where there is no danger of injuring susceptible ornamental or crop plants. (3) To control many annual weeds in resistant growing crops. (4) For the prevention of seed production of some weeds. (5) To reduce the vigor of susceptible perennial weeds. (6) For spot treatment of susceptible perennial weeds in pastures that do not contain legumes.

Important Factors. Some of the important factors affecting the results of 2,4-D treatments are the kind of plant, stage of growth, soil moisture, soil fertility and temperature. Farmers planning the use of 2,4-D treatments for grain crops in 1947 should seek advice from their Agricultural Representative or nearest University or Dominion Experimental Station.

Weed Research. Much more information is needed on weed control by 2,4-D. As a matter of fact there is the greatest need in Canada, not only for more chemical weed control studies, but for greatly enlarged funds for general weed research. No practical weed control programs can be better than the research on which it is based.

MY WEEK

by R. J. Deachman

A few days ago I listened to an address on recreation. There is a movement on foot to provide recreation at public expense. The estimate is that it would cost sixty million dollars a year, five dollars per head of our population and, after all, that's not a large sum. So goes the argument.

It was an excellent speech, forcefully and clearly presented. The speaker made converts to his point of view yet I wonder where we are going. Soon the state, the mother of us all, will have an arm about us. We shall have everything we want except freedom, the one thing that matters most.

Some years ago, my son, then in his teens wanted to spend a couple of weeks at Y.M.C.A. camp at Golden lake, a spot about a hundred miles west of Ottawa. One day he said to me "How shall I go, by train or will we drive?" I said: "Young man if you want to go to Golden Lake you will have to walk". My face was long and hard and I tried my best to make my eyes look cold. He promptly retorted, "I'll walk if you will go with me." I answered "suits me". We went.

It was delightful weather. There was no hurry about it. We thought we could make twenty miles a day and we did. We were offered rides at least seven or eight times a day. We refused every one of them. Once we met a member of parliament going down to Ottawa on business. He offered to take us back to Ottawa and bring us back that night. We accepted his invitation to dinner but we didn't accept his drive.

That trip gave us all the joy of the open road. Every step had its own peculiar interest. We wondered what would happen around the next corner. Once we stopped to watch a caterpillar cross the road. Carefully we tried to turn him around. No, he was a stubborn Scot and was determined to go his own way. My son picked him up and ran up the road with him and dropped him again. He had lost his sense of direction he would now go anyway we wanted him to go.

The following year we went by car around the Gaspe Peninsula in Quebec. We planned next year to go down to Quebec and make the Gaspe trip on foot but that year I went to England and the following year to the House of Commons. I'm ready though for another walk if I get the chance.

When holiday time came around last summer my younger son wrote me that he was going on a walking tour and would let me know what happened. I got a post card from him from Quebec City. Then another, he was at Mont Joli and then Moncton. I had two or three cards from Nova Scotia. He had started from Montreal, making a combination of walking and hitch-hiking. In his younger days he had taken a trip to the Arctic and one to the Tropics but neither of these trips were worh as much to him from a physical standpoint as the one where he had to walk, hoofing it, at times for long distances before he arrived at shelter for the night.

Youth should be encouraged to find its own means of enjoyment. There is an exhilaration in exploring new roads, a joy in seeing new faces, new scenes. The larger cities are not the only places worth while. There is happiness in the countryside and happiness in the small towns.

I wonder if we would get full value for our money with a government sponsored program of recreation running into milltons? Deep down at the bottom of all these sponsored program for making the nation happy, there should be this question: Is there a better alternative use for the sums we propose to spend on them. It should be at the top and bottom of every such proposal. I give no answer yes or no, but I would like to hear what others have to say. I would like first an answer to the question: Is this the program which will give us the best value for our money? Then here is another question: Can we continue to cushion life with state aids an still develop the initiative and drve which leads to personal and national progress?

Tune in to CJOC at 6:15 p.m. Monday and Saturday Evenings

Alberta Wheat Pool delegates are presenting a series of radio talks to the Pool members and farmers of southern Alberta on these evenings.

The Schedule:

SATURDAY, February 8- L. J. McKenzie, fieldman, "The Alberta Wheat Pool on the Air".
MONDAY, February 10th. — Paul H. Redd, delegate A-4, Raymond, "Alberta Wheat Pool Achievements".
SATURDAY, February 15th,— Edwin N. Davidson, delegate A-6 Coaldale, "The Wheat Board and Wheat Agreement"
MONDAY, February 17th,— J. R. Hunt, delegate A-7, Iron Springs, 'Wheat Pool Reserves and Patronage Dividends".
SATURDAY, February 22nd,— Lester W. Lee, delegate A-5, Woolford, "Why Farmers Should Patronize Alta Pool Elevators"
MONDAY, February 24th,—Rolan A. Warren, delegate A-3, Warner, "A Farmer Talks To His Neighbors"
SATURDAY, March 1st,— M.C. Verburg, deltgate A-2, Coutts Subject: To Be Selected.
MONDAY, March 3rd— George J. Purcell, delegate A-8, Enchant, Subject: To Be Selected
SATURDAY, March 8th —A.T. Baker, director for Lethbridge division, Nemiscam, Concluding Address.

CALL it what you will—the desire to stand on your own feet—the urge to get ahead under your own steam—"a business of my own" is probably for you, as for thousands of fellow-veterans, life's No. 1 ambition.

IF you have ideas of starting up in business for yourself, of improving your present set-up, or of going into partnership with a friend, the need for money to get going will be just about No. 1 item on your agenda.

HERE'S where you can look to the Bank of Montreal, which has already become "My Bank" to thousands of veterans from coast to coast.

DROP in and discuss your financial needs with your nearest B of M manager. He knows the details of the new Veterans' Business and Professional Loans Act, recently passed by Parliament for your benefit, and he is anxious to help go-ahead veterans. If your proposition is sound, there's money for you at the B of M.

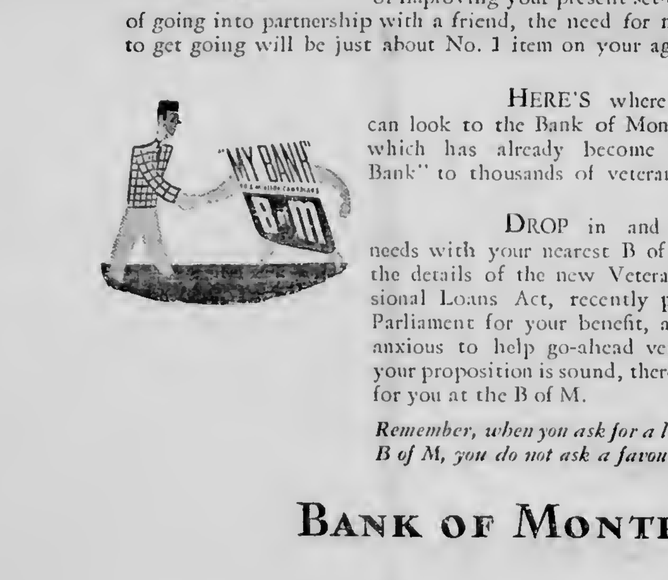

Remember, when you ask for a loan at the B of M, you do not ask a favour.

RICH STRONG DELICIOUS

OUR COMPLETE SHORT STORY—

A LOVELY DAY FOR LAURA

By G. PATRICIA WARBURTON

THE sun shone brightly through the window making intricate patterns on the carpet, and the soft breeze casually ruffled the drapes.

It was very quiet in the room, but outside the birds were singing sweetly and the scent of flowers was poignant. It was one of those rare, unforgetable days of the early summer when Nature seemed to have bewitched herself with the beauty spread so lavishly everywhere, and now lay breathless and inanate.

Douglas Marlowe turned from the window to look at his wife, thinking, "How young she looks."

Her long, dark lashes curled up from her white skin, and there was a faint sprinkling of freckles across her nose.

He remembered the first time he had watched her as she lay sleeping. After awhile she had opened her eyes, smiled slowly and sleepily at him, and murmured, "Hello, you", then twined her fingers around his.

His heart had contracted at this gesture, and he felt a quick surge of tenderness and protectiveness, and bending down, had buried his face in her hair, whispering huskily, "Darling, darling, I love you."

Their three-week honeymoon had been heaven, but even now, after three years, Laura seemed somehow to make every day exciting and happy.

She was interested in everything and everybody. Children, animals, her precious garden, on which she spent so much time and energy, the gifts he brought her, especially the amusing ones, like the parrot that talked, or mostly swore and which they had finally sold back to the pet shop. She was absorbed with everything that came her way.

She had been twenty-three when he married her, and he had thought sadly that as she got older and settled down, she would probably lose this gay and charming manner, and once he had said, "Don't ever change, Laura." Now, at twenty-six, she was still the same, perhaps a little more mature. Even the loss of their first child which they had both wanted so much had not embittered or hardened her. She had been quiet and sad, and a little lost, for a time, but gradually her laughter and quick good-nature had come back.

She enjoyed the same things he did, liked the same sports, and they got on wonderfully together.

Not that they hadn't ever had a quarrel. He remembered one in particular. He had driven two prospective customers out into the country to show them some property. On the way back, the car had broken down. They were miles from anywhere, and when he finally got it running again, his one thought had been to get home as quickly as possible and he hadn't stopped to phone Laura. It was almost three o'clock when he arrived home, and she was waiting for him, tense and worried.

She was relieved and thankful to see him unhurt, but hours of waiting had sharpened her tongue and she made several very pointed and sarcastic remarks. Then she had cried a little and he had comforted her, and they had kissed and made up. It was funny how quickly a woman's mood could change, he thought.

He glanced again at Laura, but she still had not stirred.

Then he looked outside for a minute, thinking again what a beautiful day it was.

This was the kind of a day Laura liked. She would wake up soon.

She loved to bask in the hot sun with as little on as possible, and was forever calling him to rub her back with sun tan oil. Not that he minded the job, for her back was soft and smooth, and he loved the pleasant sensation of that satin skin against his palm.

"Doug, that's enough," she would cry, and he would say, "Just a little more on this shoulder."

"But you've already done it twice," she would protest half-heartedly.

He would rub for another two or three minutes, then give her a final pat, and half the bottle of oil would be gone. After a while, it became a ritual that both enjoyed.

Christmas was another ritual. Laura loved Christmas, and looked forward with anticipation to all the bustle, last-minute shopping and gay festivities, and threw herself with intense concentration into feverish preparations. Two or three days before Christmas they trimmed the tree.

Christmas Eve, all the presents were spread under the tree in a galaxy of colour and fancy wrappings, and next morning they had a wonderful time unscrambling them all. Relatives and friends' presents were put back under the tree, and their own were put on one side to be taken back to bed to be opened.

They always bought each other one good present, one funny present, and two or three small ones.

Laura usually spent the rest of the morning rushing back and forth answering the doorbell, welcoming visitors, distributing presents and dispensing cheer in the way of shortbread, fruit cake and other delicacies, while he was busy mixing his own special Christmas punch.

In the afternoon, they visited some of their friends, and later had dinner with Laura's family.

He sighed wearily. How different it would be next Christmas.

It seemed to be getting warmer outside. The scent of flowers grew heavy in the room. Douglas thought how Laura would hate to miss even a minute of such a perfect day, and wished again that she would waken and smile a greeting at him.

Suddenly, from the room overhead, the thin, fretful cry of a new baby startled him, and he was aware that he had been day-dreaming and lost in memories for a long time. He was also conscious of the low murmur of voices.

Again the baby whimpered, and still Laura did not stir.

He was vainly trying to gather his wandering thoughts when a tall man with a kind face quietly entered the room and spoke to him.

Then he remembered, Laura was not going to wake—not ever—only the small daughter, whimpering in the nursery, remained—and the lovely, lovely day.

OUR UNEMPLOYMENT INSURANCE FUND UP

OTTAWA—Though payments from Canada's unemployment insurance fund went over the $50,000,000 mark last year, the fund swelled by a net $41,000,000, the unemployment insurance commission announced.

Balance in the fund at the end of 1946 was $357,222,000. The climb was achieved despite the fact that 1946 disbursements of $51,000,000 were more than 3½ times the next-highest annual total of $14,500,000 paid out in 1945.

The heavy rise in benefit payments, however, resulted in a smaller net increase in the fund than was the case in 1945.

Employer-employee contributions amounted to $61,995,000, compared with $60,938,000 the year previous. Regular government contributions moved up from $12,417,000 to $14,187,000.

In addition, two special contributions by the federal government aggregated $5,490,000. One, for $5,067,000, was to cover time spent in the armed forces allowed to veterans free of charge under unemployment insurance after becoming established for 90 days in insurable civilian employment. The other, $873,000, was to provide credits for wartime merchant seamen to qualify for free time under the insurance act.

Interest and profits on investments brought the fund $7,207,000 last year, compared with $5,874,000 in 1945.

BED CRANK GUNMAN ELECTS TRIAL BY JURY — Austin Craft, Brantford, Ont., sanatorium employee, elected trial by judge and jury when he appeared in Hamilton police court on a charge of robbery. Police accuse him of robbing a Bank of Toronto branch in Hamilton of $1,000 in cash. The staff and two customers were forced to keep quiet by the supposed gunman, who was later found to be carrying a hospital bed crank wrapped in paper. Two girl clerks disguised a third girl's efforts to call police by coughing loudly. The accused was arrested less than a minute after the alarm was sounded.

By BILLY ROSE, Sedgewick, Alta. Canadian Curling Champion, 1946

While there are many thrilling incidents I recall during the course of the 1946 Brier at Saskatoon, two stand out in my memory very vividly.

The first occurred in the first game my rink played against Howard Palmer and his Calgary Club rink in the Provincial finals at Edmonton. Howard Palmer is a wonderful curler and a swell fellow to boot. We had met in two previous British Consol finals and Howard had had much the best of it, winning both. In this year's final he was three up going home in the first game of a best of three series. When I went to throw my last rock he was lying shot in front of my lead rock and it would take a very accurate shot to displace his without losing my back rock or rolling out myself. I was lucky enough to get the right "Broom" and weight, making the shot to lay three and tie the game, forcing an extra end. In the extra end my rink sewed things up so tight that neither Howard or myself could do very much about it when our turns came to shoot. The making of this shot, was naturally quite a thrill to me and no douht to the hundreds of spectators, but I believe that the making of that shot also provided added inspiration to the other members of my rink to such an extent that they went into the second and what proved to be the final game with plenty of confidence and this game was not so close. It is also quite possihle that this shot coming as it did when the game seemed over, had somewhat of an adverse effect on the playing of the Calgary boys in the second game.

I would like to add one thought and that is that it takes four men to win a curling game or a competition. No skip can win by his own efforts alone and I cannot give too much praise to the three boys who curled with me.

Vladivostok, in Siberia, is farther south than Venice, Italy. 2711

Northern Trapper Bothered By Mosquitoes

THE PAS, Man.—It may be the coldest winter northern Manitoba has experienced in 10 years but Alex Jones, bachelor trapper of the Falls Island district, five miles east of The Pas, is complaining about mosquitoes.

Not only that but he answers doubting and quizzical looks by flipping back his parka hood to reveal several sizeable bumps.

"Mosquito bites", he explains. "Not only that but I kill four or five every day in my cabin. They come through the floor. I figure if they can stand the winter, they will probably be pretty tough by the time summer comes."

Jones believes they breed in the muskeg under the cabin and the warmth of the stove makes them think summer is here. Once they find it's cold they try to keep warm by flying around. "They're easy to kill, right now. Oh, I don't mind them, but the trouble is when they bite, they itch. When I itch, I scratch and when I scratch, nobody believes it's just mosquitoes in winter."

SELECTED

RECIPES

SOFT CRUMB COFFEE CAKE

3 cups sifted flour
4 teaspoons baking powder
1½ teaspoons salt
¾ cup sugar
⅔ cup shortening
2 eggs, well beaten
1½ cups milk
Crumble or Honey Nut Topping

Sift flour once, measure, add baking powder, salt, and sugar, and sift together into bowl. Cut in shortening until mixture looks like coarse meal.

Combine eggs and milk; add to flour mixture and mix only enough to dampen flour. Spread in a greased 16x10x2-inch pan. Sprinkle with topping. Bake in moderate oven (350 deg. F.) 35 to 40 minutes.

Crumble Topping—Mix 4 tablespoons sugar and 1½ teaspoons cinnamon. Add to 1½ cups soft bread crumbs and toss with 4 tablespoons melted butter. Add 4 tablespoons chopped nuts and sprinkle over coffee cake before baking.

Honey Nut Topping—Cream ⅓ cup butter with ⅓ cup brown sugar and ¼ teaspoon salt. Add ⅓ cup each flour and honey, and ⅔ cup chopped nuts. Beat to mix. Then stir in 3 tablespoons hot water and sprinkle over coffee cake before baking... corn syrup may be used instead of honey.

NOT A QUITTER

Frank P. Grant of Wichita, Kas., who didn't quit work until he was 95, died recently at the age of 106. He was only persuaded to retire in 1936 from his job as a scissors grinder after he was struck by a train and seriously injured.

Used to Wake Up with a Headache

Now Fresh and Lively Every Morning

Here is a man who woke up most mornings with a dull headache. What a dismal way to start the day! But Kruschen transformed his life, according to his letter:—

"I used to wake up in the mornings with a dull headache. A year ago, I started taking Kruschen Salts regularly. Today, I wake up fresh and lively and can do my day's work without undue exertion. I find Kruschen Salts a great help, and have not been so healthy for a long time. I can recommend Kruschen for anyone suffering from headaches and constipation. I'll never be without Kruschen as long as I live!—E.P.

Dull headaches such as this man suffered from can often be traced to a disordered stomach and to constipation because of waste material which remains in the system. A small dose of Kruschen taken regularly in the morning promptly helps to remedy this condition. And that is how Kruschen acts to relieve such headaches.

Try Kruschen for relief of morning headaches and sluggish feelings. 25c and 75c at all drug stores.

Post-War Peaks Seen In U.S. Steel Output

CLEVELAND. — Steel production has increased to the highest level attained since the war and is headed toward new post-war peaks, the Magazine Steel said recently.

Prospects are that a balancing of supply and demand is still some months off, the magazine predicted an excess in requirements of flat rolled products, including plates, beyond the second quarter of 1947. Some leaders anticipate that a satisfactory balance in most grades of sheets and strip will not be reached until next year. The supply of alloys is adequate.

GREAT SHORTAGE

Canada has a shortage of 4,000 doctors, 6,000 dentists, innumerable nurses and $176,000,000 worth of hospitals and equipment, according to Mr. George Hoadley, of Toronto, president and general manager of the Health Study Bureau. — Canada's Weekly.

Our Letter Box

EDITOR,
The Raymond Recorder

Dear Sir,

May I, through the columns of your valuable paper, speak direct ly to the citizens of Raymond about a matter which urgently requires their consideration? A number of your sons and daughters are either at the moment employed in, or train ing for, the teaching profession. My purpose in writing this letter is to make you aware of the position of teachers in this province and then to suggest that you do something a bout it, not only for our sakes as teachers, but for the sake of our younger brothers and sisters, and your children whom we will some day be teaching. If there is anything ailing with the teaching profession it is not only the teachers who suffer.

So I say to you, all my friends in Raymond, is there anything more important to you than the proper and efficient education of your child ren Are they receiving the maximum of attention and highest degree of instruction in our schools? How can a teacher, who is expected to devote his full time, knowledge and energy to the development of his pupils, fulfill this obligation, when he is paid so little for his services that in order to maintain a decent standard of living, he is obliged to supplement his meagre income by finding employment outside the school? Is it any wonder that the average teacher in this province stays in the profession less than six years? The only wonder is why they stick it that long.

As would be expected under these conditions, there is an appalling teacher shortage in Alberta— 1390 schools without teachers by the Minister of Education's low estimate. There are 15,671 pupils subject to non-teacher education. 2,000 students graduate from high school every year. 1000 of these have academic qualifications to enter the Faculty of Education. 714 registered at the University of Alberta in September 1946 and of these 213 registered in the Faculty of Education. 1,000 new teachers are needed annually with the present teacher turnover. Conclusion: To operate Alberta Schools—

(1) Old teachers must be retained in the profession, and
(2) more recruits must be attracted to education.

To do this salaries must be raised until they are commensurate with the value of the services rendered. Teaching must be elevated to the level and dignity of other professions. In our humble opinion the teaching profession ranks second to none, either in magnitude or nobility of purpose.

Here are some of the reasons for the shortage of teachers:
(1) The average teacher's pay in 1924 was 891 pre-war dollars per year. Increased salaries are absorbed in increased costs of living. Salaries are insufficient as long as there is not a well qualified teacher in every school and educational standards are being slackened. The single salary schedule as proposed by the Alberta Teacher's Association consists of a basic minimum of $1500 to $2700 depending on the number of years of training, of experience valued at $100 per year up to $1000, and additional allowances for administration etc.

(2) In Alberta retirement allowance after forty years service is $420 per year— The teacher's contribution is at the rate of 3 per cent of salary—not much to look forward to at the age of sixty-five. Allowance in Quebec is $2,100. In Saskatchewan $821 plus annuities based on contributions.
(3) Conditions: poor facilities, over crowded classrooms, rural hardships poor teacherages—even bonuses for isolated districts have failed to attract teachers.

One might ask at this point why it is that anyone is attracted to join this neglected profession, why anyone would willingly join the ranks of discontented teachers. Here is my answer. Fortunately for society there are a few altruistic ,public-minded souls who are not happy unless working for the public weal. These few, not because of, but in spite of the salary, enter this slighted and scarcely respected occupation

Sources of income are as follows: 21 percent paid by government grant—79 per cent by municipal taxation. Provincial Governments in Ontario, Manitoba, B.C., and soon Saskatchewan pay 50 per cent school costs. The province should carry the major load in financing education because:

(1) The B.N.A. Act made Education a provincial matter—Municipal taxes are high now.

(2) The province has access to the taxation of provincial industrial wealth which in 1941 amounted to $761,000,000, which the municipality has not. Last year Alberta had a surplus of $10,000,000 and was 2000 teachers short.

Now what are you going to do about it? There are two things you can do: you can influence the local school board to raise teahers wages and you an prevail upon your M.L.A. to do all he can in parliament.

This letter, and many more going out from the students in this University to their home towns, is just part of a general movement to improve the standards of Education in Alberta. All I can do from here on is to continue my studies toward a competent teachership and trust that you, my home-town friends will do all you can to make my efforts worthwhile, both for myself and for the town where I may some day teach school.

Sincerely yours,
Franklin H. Smith

History of Raymond

With the first issue in March of this year, the Recorder proposes to carry a history of Raymond in serial form. This history will be written by Mrs. Elizabeth King, who for years has kept a scrap book and diary and has been keenly interested in the events and development of Raymond.

The history will start with the coming of the first settlers, and readers are urged to hand in any bits of history that they have and that may be called to mind as the narrative is carried on.

Watch for this feature and dont miss any issue, as we intend this shall be as complete as possible.

DID YOU KNOW THAT—
1000 boys and girls of school age in Alberta are not in school.

Dominion To Broaden Rules Of Immigration

OTTAWA.—A broadening of the Canadian immigration regulations to permit the entry into the Dominion of four new classes of immigrants was announced to the commons by Resources Minister Glen, the minister responsible for immigration.

He rose during the throne speech debate to disclose the passage Jan. 30 of an order-in-council allowing entry of these new classes:

1. The widowed daughter or sister (with or without unmarried children under 18 years of age) of a legal resident of Canadn who is in a position to receive und care for such relatives.

2. An agriculturist entering Canadu to farm when destined to a father, father-in-law, son, son-in-law, brother, brother-in-law, uncle or nephew engaged in agriculture as his principal occupation who is in a position to receive such immigrant and establish him on a farm.

3. A farm laborer entering Canadn to engage in assured farm employment.

4. A person experienced in mining, lumbering or logging entering Canada to engage in assured employment in any one of such industries.

Mr. Glen also announced amendment to the regulations to allow the admission of orphaned nephews and nieces under 18 years of nge who are related to Canadians. Previously, only orphaned nephews and nieces under 16 were admissible.

He estimated that the changes would result in a "considerably larger" number of immigrants coming to Canada.

Of the question of a general postwar immigration policy, Mr. Glen indicated the department and the cabinet still had this under study.

He made his announcement of the broadened regulations while replying to charges made by Alistair Stewart (C.C.F.-Winnipeg North) that the regulations contained discriminations against Jews and Ukrainians and Poles. Mr. Glen said this was not so.

When Mr. Glen made his announcement Mr. Stewart asked if the amendments applied also to Jews, Ukrainians and Poles.

The minister replied that it would apply to such persons if they fulfilled the requirements.

He said that because of the still-unsettled conditions in various parts of Europe, and existing frontier controls, it was not yet possible for immigrants from some countries to proceed to embarkation centres for immigration and medical examination as in pre-war years.

RESTRICTIONS CONTROLLING CIVIL SERVANTS REMOVED

OTTAWA.—Lifting of wartime restrictions on reclassifiention of civil service positions was announced in a letter from Finance Minister Abbott to deputy ministers.

The letter announced removal of freezing controls on civil servants' salaries. It is understood the move opens the way for reclassification of a number of civil service jobs, along the line of the Gordon royal commission on administrative classifications in the public service.

Leading livestock state in the United States is Texas.

SWEDEN'S ROYAL FAMILY BROKEN — Prince Gustaf Adolf died with 21 others in the crash of the Royal Dutch Airliner at Copenhagen. Four generations in the male line of the Bernadotte family are seen here in recent portrait. King Gustaf holds great-grandson Prince Carl Gustaf; centre, who is second in line to the throne, Prince Gustaf Adolf; left, Crown Prince Gustaf Adolf.

More Research Needed For Dairy Industry

More research directed to greater efficiency and less drudgery on the dairy farm is needed in western Canada, Prof. V. E. Graham of the dairying department, University of Saskatchewan said at the 38th annual convention of the Saskatchewan Dairy association in Hotel Saskatchewan.

Without research, he said, the dairying industry will languish. Any research undertaken must be directed towards greater efficiency in manufacturing and a greater utilization of the use of milk, all the milk including skim milk, not just the cream.

Because of the volume of production per plant is so important to efficiency in manufacturing it follows that some improvement in this respect will result from more efficient production on the farm and a greater concentration of production in those districts which are adapted to dairying, Prof. Graham said.

Yet efficient manufacturing only starts with efficient production. Efficiency also requires a high degree of technical skill and this is gradually being applied largely through the efforts of agricultural colleges, he said.

More cow testing associations were required, Prof. Graham said. Farmers should be more careful in the selection of their animals, he said, explaining that when the position of a farm or individual is required, a banker is consulted or a credit rating used. "You get this information in black and white and depend on it. When you want to buy a cow you should also be able to secure a certified record of her production. If you are engaged in dairying to make money, the production of the animal you buy is of prime importance," Prof. Graham said.

He was of the opinion that a herd of about 15 cows was necessary to justify the installation of modern equipment.

Dairying in the west had had a remarkable expansion, he said, showing how Manitoba in 1906 to 1915 produced 3,100,000 pounds and in 1936-45 28,200,000. Saskatchewan in the same period rose from 1,100,000 to 34,000,000 pounds and Alberta 2,900,000 to 32,600,000.

According to the 1941 census the west had 21 per cent. of Canada's population yet it produced 28.9 per cent. of the country's milk. Saskatchewan is supposed to be a cereal province yet in 1941 with 7.8 per cent. of population it produced 10.4 per cent. of the country's milk.

CREAMERY BUTTER STOCKS INCREASED

OTTAWA—Canada's domestic butter outlook is about 3,500,000 pounds brighter than the dark days of a year ago when the weekly individual ration fell to four ounces—it's all time low.

The bureau of statistics reported that stocks of creamery butter in nine principal cities totalled 17,433,720 pounds on Feb. 1, compared with 13,952,164 Feb. 1, 1946. Stocks on Jan. 1 totalled 25,501,655.

Actually, however, the main reason for Canadian elation concerning butter was still the 8,000,000 to 10,000,000 pounds Canadn has been promised from New Zealand. Shipments of New Zealand butter are expected to reach Canada shortly.

STYLES ARE CHANGING

NEW YORK.—Brides of 1947 may wear their palladium or gold wedding rings in their ears, as well as on the third finger, left hand, reports O. M. Resen, jewelry designer. "For sentimental reasons", brides are buying three wedding rings, and converting two of them into earrings that match their wedding bands Resen said.

Canada's Stand

Explains Peace Treaty Request

OTTAWA.—Canada does not want to see a few countries "dominating" the peace, Prime Minister Mackenzie King told the commons in an explanation of the dominion's request for a voice in the German peace treaty.

Declaring the whole country was back of the government's move for greater participation in the treaty-making, the prime minister said Canadn wanted nothing for itself and was trying only to render a service to the cause of world peace.

While this country was making its all-out war effort, Mr. King said, the government had had in mind n hand in the peacemaking. Now, it felt that effort had justified its demand for a seat nt the treaty table.

"We were fighting to prevent two countries from dominating the world," he declared. "Now, we do not want to see nny one, two, three, four countries dominate the world peace."

FAR EAST EVENTS HAVE POWERFUL INFLUENCE HERE —SAYS AMBASSADOR

TORONTO.—Mr. Justice T. C. Davis, newly-appointed Canadian ambassador to China, said events are "in the making" in the Far East which will have n powerful influence on the lives of the Canadian people.

Addressing a Canadian club luncheon, the ambassador said: "The ferment of India, the difficulties in The Netherlands East Indies, the movement for greater freedom in Burma and in Malaya, the developments in China, the changes being made in Japan, have created conditions like a seething cauldron and no one is quite certain as to what may emerge from the pot."

The western world could influence these developments for good or evil and should have the insight to appreciate the impulse of eastern peoples to progress."

In Australia, where Mr. Justice Davis acted as Canadian ambassador from 1943 to 1946, he found people without "a very warm feeling towards Canada and Canadians."

"They felt that in their hour of greatest need, Canada, the nearest great sister dominion, should have come to their aid...I had to explain that for two years before Pearl Harbor, Canada had been committed to all-out aid to Britain in the European sector of the war.

"As time went on...Australia realized the position and concurred in the course we pursued and were in fact very proud of Canada's contribution to the war."

HIGH TEMPERATURE ABOVE FRIGID ZONE

WASHINGTON. — Layers of blazing heat have been found in the frigid upper atmosphere, scientists announced. Up to now it had been assumed that above seven miles, the temperature remained constant at 67 degrees below zero Fahrenheit. But thermometers in rockets have disclosed a torid zone with heat of 170 degrees between the 30- and 40-mile mark.

From 40 to 50 miles, the air grows colder again, the temperature probably dropping as low as 150 below zero. The thermometers there registered 80 below. Then from 50 to 75 miles occurs another torrid zone where the rocket thermometers recorded 212 degrees and the scientists calculated that the maximum probably was 638 degrees.

The new data was obtained by thermometers in V-2 rockets launched at White Sands, N.M.

Would Save Refugees From Being Deported

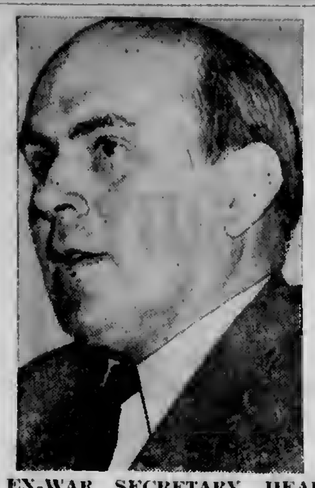

LONDON.—Gen. Mark W. Clark, American delegate to the conference of Big Four foreign ministerial deputies, opened a determined campaign to save thousands of refugees from Russian and Soviet-satellite countries from prosecution as "war criminals" for their political views.

Clark introduced at a meeting of the deputies a proposal that the Austrian independence treaty contain a clause to prevent the refugees in question, now in camps in Austria, from being taken by force to their countries of origin. Once deported, they would face trial and prison terms at best.

It was understood here that Clark, if necessary, was even prepared to act in his capacity as American commander in chief in Austria, to remove the refugees to camps in the American zone in Germany.

IN POLISH HANDS

WARSAW—A government spokesman said the administration of the entire Baltic sea port of Stettin had been handed over to the Poles by the Russians. Sections of the port were used by the Russians for transshipment of goods and personnel to and from the Soviet occupation zone of Germany. 2711

EX-WAR SECRETARY HEADS WORLD BANK — New head of the 10-billion-dollar World Bank is John J. McCloy of New York, former U.S. assistant secretary of war. The new president succeeds Eugene Meyer, who resigned.

Extension Of Emergency Powers Sought

OTTAWA.—Extension of about 50 of the government's emergency powers—including controls on prices, supplies and rentals—will be sought for a limited time from parliament, Prime Minister King said in the Commons.

At the same time, Mr. King announced the government will propose an amendment to old age pensions legislation to provide "something in addition" to the present act—$25 at 70. But he did not indicate whether this referred to reported lowering of the age limit and increased payments, declaring he could not say now what would be included "in addition".

Further government legislation, the prime minister said, will include a bill amending the industrial disputes investigation act—that will be the new national labor code—and one dealing with veterans' preference in the civil service.

Mr. King gave a summary of the government's legislative plans with respect to controls and emergency legislation after M. J. Coldwell, C.C.F. leader, asked far an early disclosure to the house of what measures were proposed upon the March 31 expiry of the National Emergency Transitional Powers act.

On the labor relations legislation, A. L. Smith (P.C.-Calgary, West) wanted to know if members could get copies of the measure to set up the new labor code.

"The bill already has been distributed to manufacturers' organizations and labor organizations," he said. "Would it not be possible for members of parliament to be shown the same courtesy?"

Labor Minister Mitchell was not in the house, and the question was not answered.

Stanley Knowles (C.C.F.-Winnipeg North Centre) asked whether there was to be a temporary measure continuing the present arrangement on old age pensions, followed by a "definite amendment" to the act later.

Mr. King said an amendment increasing the amount of pension under the emergency powers act would expire March 31. The government would seek to have that period extended in the general bill, following this with a specific bill on pensions.

Asked by Mr. Knowles when the bill might be introduced, he said that would depend on progress made during the session.

Snow Storms Interfering With Grain Deliveries

WINNIPEG. — Snow-blocked highways in many parts of western Canada had interfered seriously with deliveries of grain from prairie farms, grain men said here, but the paramount problem in meeting the Dominion's export commitments remained one of movement to Atlantic and Pacific ports.

While the visible supply of Canadian wheat as of Jan. 31 was more than 134,700,000 bushels, only about 5,000,000 bushels were in an export-able position, the majority of this at Canadian or United States Atlantic ports. Nearly 77,000,000 bushels were in country elevators.

Exports so far this crop year total 74,800,000 bushels compared with 169,400,000 bushels the same period last year and grain men say that "quite an impetus is needed" if commitments are to be met. "What the railways can do from here on to provide grain cars will tell the tale."

Although the west on Feb. 5 posted the lowest one day's inspection on record—56 cars of grain compared to an average of about 450—because of snowbound highways and railway feeder lines, grain men said recent storms affected the situation only where snow had blocked branch lines and prevented movement from country elevators on them to the clear transcontinental lines.

If storms block both feeder and transcontinental lines for a considerable period of time or if farmers are unable to deliver wheat to local elevators then a serious situation could develop, but both possibilities are discounted.

FRANCE TO TRY HIM FOR "HARMFUL" ACTS—On charges of committing acts "harmful to the external security of the state," ex-Premier Camille Chautemps will be tried in absentia by the French high court of justice, according to a Paris report. He is shown here in Los Angeles recently.

Duke Of Windsor Plans Autobiography

PALM BEACH, Fla. — The Duke of Windsor said that he is planning to write his autobiography.

Interviewed at the home of Robert R. Young, railroad executive, the duke disclosed that he had many records and notes—and a typewriter.

The duke said that some day he would begin to write the story of his experiences and world observations.

BURMESE AGREEMENT ANNOUNCED—Independence agreement for Burma was signed in London, with two Burmese leaders dissenting, following midnight consultation of delegates with Prime Minister Attlee, left, seen with Sir Stafford Cripps and U. Aung San from Burma.

THE Sport Spot

Sports took a sharp decline in Raymond last week. The Jacks played a very fast game with Calgaries Detroit Bears last Saturday and came out on top of the score. Calgary had possession of the ball more than their share of the time, but the basket eluded them. Mitchel of Raymond was high score for the game.

• • •

Two exhibitin hockey games were played Tuesday night on the Raymond rink. Due to some mix up both White School (Lethbridge) and Stirling showed up. Rather than see one team home without a game, the Raymond squad took them on one after the other. Scores—White School 5 Raymond 2 and Stirling 4 Raymond 0.

Both games offered more than enough thrills and fights, and of course plenty of good hockey. A good crowd attended the games which lasted till the wee hours of Wednesday. Hockey minded sports fans are looking forward to a covered rink, and if the town will get behind the present skating committee there is no reason why Raymond shouldn't have one.

Another great winter show, this time the Ice Follies of 1947, sponsored by the Hockey Clubs, is on its way. Tickets are available now, so lend your support to these boys. They work for it.

Two tams from Magrath— A and Girls and the B team from Lethbridge were entertained by th R.H S. last Friday night. The Girls opened the ball at 7 o'clock. The two teams were very well matched and playd almost even until the 3rd quarter when the outstanding shooting ability of Ruth Graham came to the fore and left the Raymond equad 8 points up at the final whistle.

Lethbridge B team forced a slow pace for the opening of the second game, a polley which lasted for almost three minutes. Pete, Shaw and George Faidbanks started the ball rolling and ended up with 10 and 8 points respectively. The game ended with the Lethbridge boys trailing by a full 16 points.

The third and final game between Magrath and R.H.S. A teams started out at a terrific pace that was maintained all the way through. The score was in Magrath's favor for the the first three quarters and then the favors began to see-saw. In the last few minutes the balance again moved toward Magrath and the game ended with the Garden City squad six points up.

We recently received a letter form Rex Ehlert who is now in Edmonton containing a small amount of constructive criticism as to the manner in whih Sport Spots has been written.

To him we wish to say, that we are sorry we couldn't change our column this week, but next week, we think we will be able to do as he suggested. Remember sport fans your letters are always welcome. Just address them to the Sports Editor, in care of the Recorder and prompt attention will be paid to them.

§

At last the date has been set for the epic of the basketball season.

On Wednesday, February 19th, those rugged, durable masters of the hoop and ball game, the "Sodbusters will meet that classy, three or four fold quintet of ball handlers, the 'Whitecollars'. Betting is about ev and no odds are granted either way. Be sure of your seats. Come early but be sure your heart is in good shape. Sheer excitement is the order of the day.
